

**Amendments to the Claims:** This listing of claims will replace all prior versions, and listings of claims in the pending application.

Listing of Claims:

1. (Currently amended) A toy exercise facility comprising:  
  
a convertible carrying case having a top section, bottom section and four sides;  
  
said carrying case being openable such that the bottom section, at least four sides and top section lie flat when the carrying case is opened; and  
  
a plurality of toy replica circuit training stations, wherein one or more of the plurality of circuit training stations is removable and reattachable ~~attached~~ to the carrying case bottom section, four sides and top section.
2. (Previously presented) The toy exercise facility, according to claim 1, further comprising means to play recorded music when the carrying case is in an opened configuration.
3. (Previously presented) The toy exercise facility, according to claim 2, wherein the recorded music playing means is a removable compact disc player.
4. (Previously presented) The toy exercise facility, according to claim 2, wherein the recorded music playing means is a computer processor.
5. (Previously presented) The toy exercise facility, according to claim 1, wherein the replica circuit training stations include one or more of an treadmill, stationary bike, barbell bench, and sit-up bench.
6. (Previously presented) The toy exercise facility, according to claim 1, wherein the replica circuit training stations include one or more of an elliptical trainer, step benches, and an exercise ball.
7. (Cancelled).

8. (Previously presented) The toy exercise facility, according to claim 1, further comprising a removable drawer having a plurality of compartments to hold dolls.

9. (Previously presented) The toy exercise facility, according to claim 1, wherein the plurality of circuit training stations are made from a pliable plastic material.

10. (Cancelled).

11. (Currently amended) The toy exercise facility, according to claim ~~10~~ 1, wherein the plurality of circuit training stations are magnetically attached to the carrying case.

12. (Previously presented) A miniature circuit exercise room comprising:

a convertible carrying case having a top section, bottom section and side sections;

connecting means between the bottom section, side sections and top section such that the bottom, side and top sections may be configured to lie essentially flat, as well as being configurable into a carrying case;

a handle attached to the carrying case;

a plurality of toy replica circuit training stations attached to the carrying case bottom section, four sides and top section; and

at least one doll sized to allow a child to pretend said doll is exercising at the replica circuit training stations.

13. (Previously presented) The miniature circuit exercise room, according to claim 12, wherein the connecting means are a plurality of hinges.

14. (Previously presented) The miniature circuit exercise room, according to claim 12, wherein the connecting means are a plurality of flexible textile sections.

15. (Previously presented) The miniature circuit exercise room, according to claim 12, further comprising a removable drawer having a plurality of compartments sized to hold the at least one doll.
